

Every agent has their own way of doing and your smile ...

But all agents need support for better selling ...

- **Check backlog**
- **Information about Orders status**
- **Financial Costumer report, unsolved**
- **Sales Statistics, Comparisons**
- **Reports**

Infostudio has the ideal and better solution

E2K Agent is a software application that enables sellers and agents more generally commercial mobile personnel, have up-to-the-minute information to better manage customers, commercial and administrative situation. All this out of Office, with the ability to have always up-to-date information in real time on customers, thanks to technology UMTS/HSDPA (Internet),
